> ers are realized, plain, dry, every-day onions are likely to become quite a luxury within a very short time. They are scarce now, decidedly scarce. That is, it is hard to get good ones, although farmers have been trying to get rid of any quantity of inferior ones for some time past. While the high water mark of two years ago is hardly expected this season, it is certain that those fond of the high-smeiling vegetable will be called upon in a very little while to put up more coin if they desire to enjoy them. Storms have been playing have with the Pacific coast fish business during the past few days, and a small shipment of hallbut was about the only fish that put in an appearance yesterday. The cold weather of Saturday, or rather the colder weather after the thaw, was responsible for an increased demand for oysters, and there was a greater call for them yesterday than for some time.
>
> Chickens and turkeys are almost as scarce as fish, and housewives were obliged yesterday in most instances to fall back upon roasts for the Sunday feast. The usual supply of seasonable vegetables made their appearance from California, about the only source of green stuff just now. any quantity of inferior ones for some

Logan & Bryan, New York, say, "The market closed somewhat irregular, but taking the list all through, the recent great strength is exhibited. The bank statement was disappointing, inasmuch as the loan increase was larger than expected. It looks as though the market had on a full head of steam, money is easy and prosperity is still rampant. We are still told to buy the active and better class of stocks on all reactions."

Dick Bros. New York, say, "After a buoyant opening, the market turned heavy, showing a reactionary tendency throughout most of the day. There was enormous realizing, which, while met by good support, was heavy enough to force declines. St. Paul was the buoyant feature. COVERING OF SHORTS SAVES SHARP DECLINE

Wheat Market Holds Steady After Bearish Move in First Hour.

CHICAGO, Jan. 20.-At the opening sentiment in the wheat pit was over whelmingly bearish. There was much liquidation by discouraged holders, and lower cables, heavy shipments from Aus-tralia and liberal shipments in the Northwest all inspired selling.

The shipments from Australia for the week were 1,584,000 bushels, compared with 1.222,000 bushels for the correspond-ing time one year ago. Initial quotations on May were off 1420 ac to 1420 ac, at 85% wayne.

Ing time one year ago. Initial quotations on May were off 40% to 150% c, at 85% 95%.

Further decline was prevented by covering by shorts and purchasing by some of the larger commission houses. This huying caused a slight recovery in prices before the end of the first hour. For the remainder of the session the market held steady. Trading in the July option showed increased activity buying being induced by spring-like weather in the Southwest, many purchasers acting on the theory that a quick drop in temperature would cause heavy damage to the suprotected crops of fall-sown wheat. The market closed steady, with May 150 off, at Sffligst Sc.

Trading in the corn pit was very quiet, but the market was firm May closed at 515c. a loss of 15c.

The oats market was steady. May closed unchanged at 125c.

Small receipts in live hogs caused a moderately firm provision market. At the close May pork was up 56715c inrd was up 15c, and ribs were ac higher.

Thousands Are Treated Annually by Doctors for the Wrong Disease

Drs. Shores' Campaign of Education is opening the eyes of sick people the world over. People no longer put up with evasive answers and costly experimenting by be-whiskered incompetents in the Medical Profession-They demand to know what their trouble really is and substantial proofs of skill before they employ a Doctor.

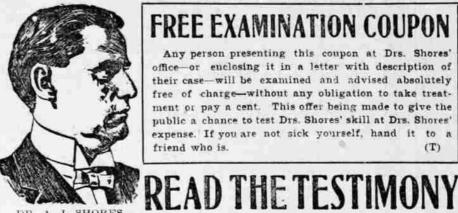

It is astonishing to hear the stories told Drs. Shores by sick people who are daily taking advantage of Drs. Shores & Shores FREE EXAMINATION OFFER—and learning free of charge what their allments are and way they have doctored year after year without results.

People with simple Catarrh have been OPERATED UPON and had bones cut away by incompetent doc-

tors in a vain endeavor to cure their troubles. People with Stomach trouble have been told their HEART WAS AFFECTED and spent money and time trying to cure a trouble that did not exist—while the REAL TROUBLE grew worse. Others, too numerous to mention, report a long chain of troubles, real and imaginary, that different doctors have found in their cases, and YET NONE OF THEM GET WELL, and they wonder WHY.
